Creating Memories
Holocaust survivors are active and engaged with the community at a variety of our Friendship Club socialization gatherings where together they celebrate holidays, enjoy concerts, or just talk.

Staying Connected
Our groundbreaking Tablets and Technology: Alleviating Isolation in Holocaust Survivors program helps connect Holocaust survivors to the world, family, and friends via the internet, email and video chats.

Being Healthy
Hearing tests, hearing aids, vision adaptive equipment, and emergency dental care services are provided at no cost for financially eligible Holocaust survivors.

PCTI-focused
Jewish Family Service is dedicated to providing Holocaust survivors with culturally sensitive supportive services as well as person-centered, trauma-informed (PCTI) supportive services. PCTI care is a holistic approach to service provision that promotes the dignity, strength, and empowerment of individuals by incorporating knowledge about the role of trauma in their lives.
